---

## EDUCATION

---

### Fresno State University

*B.S., Computer Science*

**December 2023**

*Fresno, CA*

- FSU Computer Science Club's Treasurer 2018 – 2019

## PROJECTS

---

### Personal Website

- Gained experience with the React.js library to implement my portfolio digitally.
- Tools: React, HTML, CSS, Cloudflare
- <https://github.com/jdofa/mywebportfolio>

### License Plate Scanner

- A website that allows a user to sign up for a digital parking permit. Parking enforcements are given access to data through this website allowing to verify and scan a license plate, instantly verifying whether it is validly registered or not. I served as the front-end developer for this group project.
- Tools: JavaScript, CSS, HTML, Figma, UML, SRS, SDD, Git, Waterfall Model
- [https://github.com/150-lab2/License\\_Plate\\_Scanner](https://github.com/150-lab2/License_Plate_Scanner)

### Checkers Game Website

- A website that allows users to create an account to play checkers locally or against a bot. User data is saved to a database, to allow login and sign-up capabilities. Data is also presented as local and global leaderboards.
- Tools: JavaScript, PHP, HTML, CSS, XAMPP (Apache and MySQL)
- <https://github.com/jdofa/Checkers130>

## WORK EXPERIENCE

---

### Titan Distributors

*General Labor*

**June 2022 – August 2022**

*Visalia, CA*
