EDUCATION

Fresno State University **December 2023**
B.S., Computer Science *Fresno, CA*
- FSU Computer Science Club's Treasurer 2018 – 2019

PROJECTS

Personal Website
- Gained experience with the React.js library to implement my portfolio digitally.
- Tools: React.js, HTML5, CSS3, Cloudflare
- https://github.com/jdofa/mywebportfolio

License Plate Scanner
- A website that allows a user to sign up for a digital parking permit. Parking enforcements are given access to data through this website allowing to verify and scan a license plate, instantly verifying whether it is validly registered or not. I served as the front-end developer for this group project.
- Tools: JavaScript, CSS3, HTML5, Figma, UML, SRS, SDD, Git, Waterfall Model
- https://github.com/150-lab2/License_Plate_Scanner

Checkers Game Website
- A website that allows users to create an account to play checkers locally or against a bot. User data is saved to a database, to allow login and sign-up capabilities. Data is also presented as local and global leaderboards.
- Tools: JavaScript, DOM API, PHP, HTML5, CSS3, XAMPP (Apache and MySQL)
- https://github.com/jdofa/Checkers130
